ARTWORK SETUP & CHECKLIST

DOCUMENT SIZE

All units of measurement are in millimeters as per illustration above.

CROP & BLEED

Check bleed according to illustration above or template provided.

Artwork must be set up with no crop marks.

Text must not be any closer than 25mm from the stitch lines in the template.

We suggest you continue image background all the way to the edges of artwork.

Downloadable templates available from website's bow flags page

ARTWORK FILE, COLOURS & IMAGES

Artwork to be supplied in pdf format with 300dpi CMYK colour profiles and all fonts/text must be converted to outlines.

If artwork is provided using Adobe AI or EPS, file must be packaged with 300dpi CMYK colour profiles. Please ensure files are packaged with all image links and fonts before sending. Fonts used should be converted to outlines.

Please upload or send your artwork and payment confirmation by 2pm for same day processing.
